22nd January 2026

Dear Parents/Carers,

Oak Class have been working really hard during the last half time in developing their Maths skills, and they would love to share with you the different activities that they take part in during adult led activities, as well as opportunities they have during their self-initiated learning time.

On Wednesday 11th February from 9-10am, there will be a workshop in the school hall. I will briefly talk about how we teach Maths in Reception and the key skills that children will learn and build upon throughout the year. Oak Class will then join us in the hall to take part in different Maths activities with you. This will give you a chance to gather ideas of activities that you could try at home, as well as having the opportunity to ask any questions you might have about your child's development in their Maths skills.

In order to gain an idea of numbers, I would be grateful if you could fill in the form below to let me know if you are able to attend.

Yours sincerely

M Lenhardt
