19th April 2023

Dear Parents/Carers,

I hope this letter finds you and your family well. I would like to invite your children to participate in an exciting event happening on Monday 24th April: Robot and Rockstars Day!

On this day, children are encouraged to dress up as either a robot or a rockstar, adding a fun twist to our usual school day. However, this is not just a day for dressing up - we have planned some exciting activities that will help enhance your child's mathematical skills.

Throughout the day, we will be focusing on learning times tables and number bonds. All children will have the opportunity to practice their skills on either Numbots or Times Table RockStar. There will be inter-class competitions happening all day, so your child will be able to Show off what they have learned!

As parents, we know that you are also keen to support your child's learning at home. To that end, we highly recommend encouraging your child to use Numbots and Times Table RockStar to keep practicing at home. Both are accessible online and can be used on a computer or a tablet. We have found that regular practice using these online tools can greatly improve your child's mathematical ability.

In summary, we are excited to offer such a fun and educational event for your children with Robot and Rockstars Day. Thank you for your support in encouraging your children to participate and practice their math skills both in and out of the school.

Best regards
